DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-20 provisionally rejected under the judicially created doctrine of double patenting over claims 1-10 of copending US Patent No. 6,595,207B1. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

2. The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

- As to claims 1,4,15: "an elongated tube" is recited under "an elongated tubular bottom" of claims 1,10 and "a support for the diffuser" is broadly recited under claims 1 of '207B1
- As to claims 2,3,6,14,16-18,20 are broadly recited under "adapted to be secured" of claims 1 and 10.
- Claims 7,10 are recited under claims 1a and 7 of '207B1
- Claims 9 is recited under claims 3 and 4 of '207B1

Art Unit: 3743

- Claim 12 is recited under claim 10 of '207B1
- Claims 5,13,19 are recited under claim 2 of '207B1

Claims 1-20 provisionally rejected under the judicially created doctrine of double patenting over claims 1-19 of copending US Patent Application Publication 2001/0042547A1. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

3. The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

- Claims 1,9,12,15 are recited under claims 1,17, and 19 of '547A1
- Claims 2,3,6,14,16-20 are recited under claims 1 and 17 of '547A1
- Claims 7-11 are recited under claims 10-12 and 14-16 of '547A1
- Claims 5,13,19 are recited under claims 1,2,9,17, and 18 of '547A1

Claims 1-20 provisionally rejected under the judicially created doctrine of double patenting over claims 1-10 of copending US Patent Application Publication No. 2004/0094160 A1. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

4. The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

- Claims 1,9,12,15 are recited under claims 1-4 and 6 of '160A1
- Claims 2,3,6,14,16-20 are recited under claims 1 d of '160A1
- Claims 7-11 are recited under claims 3-10 of '160A1
- Claims 5,13,19 are recited under claims 2,5 and 8 of '160A1

Art Unit: 3743

Furthermore, there is no apparent reason why applicant would be prevented from presenting claims corresponding to those of the instant application in the other copending application. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

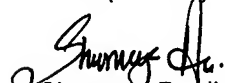

Conclusion

3. Examiner has done a through search and indicated as many patents/pending applications that are subject to Double Patenting rejections. However due to the time limit given to examine each application, the Examiner might have overlooked other pending applications or patents that would be considered for Double Patenting rejection. Therefore, the applicant is requested to inform the Examiner to such corresponding pending application(s) and/or Patent(s) and file Terminal Disclaimer accordantly.
